LIST OF DOCTORAL DISSERTATIONS IN HISTORY NOW IN PROGRESS AT UNIVERSITIES IN THE UNITED STATES AND THE DOMINION OF CANADA

DECEMBER 1941

UNITED STATES
GOVERNMENT PRINTING OFFICE
WASHINGTON : 1943

FOREWORD

Previous issues of this annual *List of Doctoral Dissertations and Other Research Projects in History Now in Progress* have appeared as supplements to the *American Historical Review* in its April issue. This year the list is made a part of the annual report to the Nation on the state of historical scholarship as required by the charter granted by Congress. It will presumably be the last *List* for the duration of the war and perhaps longer until normal conditions in the scholarly world have been resumed. The data have been gathered by the circularization of the history departments of all leading institutions granting the doctor's degree in the field of history, and in the case of research in progress the questionnaires have gone to the history departments not only of universities but of the colleges whose staffs might be expected to continue research.

For the proper use of this compilation it should be noted:

1. Doctoral dissertations and other research projects in progress which appeared in last year's list are not repeated in this year's list, but reference is made to them under the appropriate section and in the index. A small "a" before a reference number indicates the number of a Ph. D. dissertation in last year's list, a small "b" before a reference number indicates the number of a research project other than a Ph. D. dissertation in last year's list. In other words, to get a complete picture of doctoral dissertations in preparation and research work in progress it will be necessary to combine the use of this list with the previous list, published by the Macmillan Company in 1941.

2. The index follows the plan of last year; namely, an index of authors and an index of universities.

3. As in the case of the last index, dissertations and research projects are numbered continuously.

Whereas, in the past all members have received a copy of this as a supplement to the *American Historical Review*, attention is called to the fact that this issue will go only to those who receive the *Annual Report of the American Historical Association for 1941*. This report is on sale by the Superintendent of Public Documents G. P. O.

The editor takes this occasion to express his appreciation of the cooperation given by the departments of history in the various colleges and universities.

GUY STANTON FORD,
Executive Secretary of the
American Historical Association.
